

PEMSERTER® SERIES 3000MB™

AUTOMATIC MULTI-BOWL PRESS

PS3000MB-1209

PEMSERTER® SERIES 3000® PRESS WITH MULTI-BOWL SET-UP

The multi-bowl insertion option consists of a single PEMSERTER® Series 3000® automatic fastener-installation press equipped with the QX™ Turret Tool system and up to three expansion bowls. With this set-up, a single operator can install up to four different types and/or sizes of nuts, studs, and standoffs in automatic feed mode with no tooling changes.

This four bowl system is more cost-effective, more reliable, easier to operate, and provides more manufacturing flexibility than a single machine with four fixed bowls. For more information on productivity savings and increased production throughput using the Series 3000 multi-bowl set-up, please contact your local PEMSERTER dealer or call us at:

+1-215-766-8853 (USA)

+353-91-751714 (Europe)

+65-6-745-0660 (Asia/Pacific)

Features and Benefits

- ▶ One-time part handling to install multiple fasteners.
- ▶ Incrementally field upgradeable.
- ▶ Universal tooling - no tooling change required during operation.
- ▶ Can automatically feed multiple insertions of four types of fasteners.
- ▶ Large capacity feeder bowls.
- ▶ And get all of the features and benefits of a PEMSERTER® Series 3000® press.

For features, benefits, and specifications on the PEMSERTER® Series 3000® press, check our web site for PEM Bulletin PS3000.
